Ukraine war: Information and support

Students who have economic, study organisation or personal problems due to the current situation in Ukraine and the sanctions against Russia can contact our **Counselling Centre for Social and International Affairs - BeSI**. Our team from the Social Counselling Centre supports all students affected by the Ukraine war in clarifying individual questions.

We have compiled important information to answer initial questions. These are certainly especially helpful for those who fled the war and have only recently arrived in Hamburg. However, all other students whose lives in Hamburg have been affected by the war will also find advice here and can contact the **Counselling Centre for Social and International Affairs - BeSI** at any time if they have any questions in this regard.

The situation in Ukraine and the developments here in Germany are very dynamic, so we have mainly listed links that reflect the current state of knowledge, but which can change at any time. We make every effort to list only reliable sources here, but cannot guarantee the correctness, completeness and continued up-to-dateness of the linked pages.

**Arrival & Residence Law**

**IMPORTANT:** Soon after your arrival in Germany, you will have or have had to deal with various authorities, e.g. the Foreigners' Registration Office, the Citizens' Registration Office, the Social Welfare Office and/or the Jobcenter. It is **best to seek advice at the Counselling Centre for Social and International Affairs - BeSI** as early as possible, as there are a number of things to consider here (examples: You may receive a residence order and then no longer be allowed to move to another place without further ado; or housing costs can only be paid in the place where you are registered, but not elsewhere without further ado).
